

## Physical Education and Sport Premium 2025-2026

### **Purpose of PE and Sport Premium**

The premium must be used to fund additional and sustainable improvements to the provision of PE and sport, for the benefit of primary-aged pupils, in the 2025-2026 academic year, to encourage the development of healthy, active lifestyles. Physical activity has numerous benefits for children and young people's physical health, as well as their mental wellbeing (increasing self-esteem and emotional wellbeing and lowering anxiety and depression), and children who are physically active are happier, more resilient and more trusting of their peers. Ensuring that pupils have access to sufficient daily activity can also have wider benefits for pupils and schools, improving behaviour as well as enhancing academic achievement.

### **Funding Allocation**

Allocations for the academic year 2025-2026 are calculated using the number of pupils in Years 1-6, as recorded in the January 2025 census. Schools with 17 or more pupils receive £16,000 plus £10 per pupil. The premium must be spent in full by the end of the 2025-2026 academic year.

### **Using the PE and Sport Premium**

Schools must use the funding to make additional and sustainable improvements to the quality of the PE, physical activity and sport they provide. This includes any carried forward funding. The PE and Sport Premium should be used to secure improvements in the following 5 key indicators. Engagement of all pupils in regular physical activity, for example by:

1. Increasing all staff's confidence, knowledge and skills in teaching PE and sport
2. Increasing engagement of all pupils in regular physical activity and sport
3. Raising the profile of PE and sport across the school, to support whole school improvement
4. Offer a broader and more equal experience of a range of sports and physical activities to all pupils
5. Increase participation in competitive sport

## Physical Education and Sport at Bassingham Primary School

PE and sport develop our children's knowledge and skills, so that they can perform with increasing competence and confidence in a range of physical activities. These areas of the curriculum develop an understanding in children of their bodies in action and promote positive attitudes towards health and wellbeing. This enables children to make informed choices about physical activity throughout their lives.
